Fair Stock.

In years past there has been some complaint among the people in the county that they were not given an opportunity to secure stock in the Lancaster Fair Association. In order to give everyone an opportunity to have stock, all who may desire to do so may obtain stock for a limited time upon application to Mr. R. L. Elkin at the Garrard Bank & Trust Co.

Owsley.

Dr. John B. Owsley, aged 73, founder and for 35 years cashier of the Lincoln County National Bank of Stanford, died suddenly at his home in this city, as a result of a stroke of apoplexy. He had been in failing health for several years and had not been actively engaged in business. He was one of the most highly respected and wealthiest men in this community. It was a strange coincidence that Dr. Owsley, the cashier of this bank for so many years and S. H. Shanks, the president, should have died within a week of each other.—Interior Journal.

Back To Texas.

Mr. John C. Burnside left last week for San Angelo Tex. where he will make his home, having again purchased an interest in the laundry established at that place by himself and Mr. L. Brumham Bensley of this place, and which has grown to be one of the leading laundries in Texas. Several months ago Mr. Burnside grew homesick and sold his interest to Mr. Bensley. After staying here a while the call of the West grew so strong upon him that it was irresistible, and finding Mr. Bensley in a willing humor, he again associated himself in business with him.

Mr. Hemphill Back In Louisville.

In remitting for the Herald Mr. J. C. Hemphill writes us that he has been during the past winter in Frankfort Ky., where he was connected with the New England Chair Co., but that he has now returned to Louisville and taken charge of the books of H. J. Gutman & Co. The latter firm is one of the largest stores in Louisville, handling ladies wearing apparel; they occupy the building formerly occupied by W. H. McKnight Sons & Co., for whom Mr. Hemphill kept books for a number of years.

Be Rid Of It Once And For All.

The good people of the neighboring city of Danville are wrestling with a proposition which for a long while annoyed the people of Lancaster, what disposition should be made of "Jockey Row". This matter was a thorn in the side of our City Council for many years the purveyors of the old worn out saw bucks were kicked from pillar to post until they finally landed on the short street extending out past the Garrard Milling Co's place, and so obnoxious did it become there that a city ordinance was enacted putting them out of business all together.

Herdson.

Capt. William Herndon was summoned to Lexington Saturday by a telegram announcing the serious illness of his brother Mr. Henry Clay Herndon in that city, but before he could reach his bedside he had expired. The deceased was sixty years of age and had not been in robust health since he was severely injured by a fall in Maysville about two years ago. He was taken suddenly ill in his office about three weeks since, falling to the floor, however, he was thought to be rapidly recovering and on the day preceding his death had expressed the opinion that he would be able to go about his duties on Monday. The death summons came quickly while he was sitting in a chair awaiting his breakfast, he began sinking and expired within a short while.

Mr. Herndon had been in the Internal Revenue service for many years, formerly having been located in Ashland Ky. At the time of his death he was Division Deputy Collector with headquarters in Lexington. He is survived by his wife and one brother Capt. William Herndon of this place.

Funeral services were held at the family apartment at 172 North Limestone street, Lexington, at 2 o'clock Monday afternoon. Rev. Edward Mulder, pastor of the First Presbyterian Church officiating, the burial took place in the family lot in the Lexington cemetery.

Manner Of Improving The Water Works Definitely Decided Upon At Meeting City Council.

At an adjourned meeting of the City Council held on Tuesday night there being present Councilmen Gregory, Walter, Herndon and Zanone and Mayor Logan it was unanimously decided to improve the Water Works System in the following manner: by erecting a water tank with a capacity of 190,000 gallons at some high point close up in town as near as possible to the end of the 8 inch main leading from the pumping station; to build a modern filter of sufficient size to assure the purity of the water, regardless of the increase in quantity and to increase the height of the dam to such an extent as the funds will permit. The water works committee was ordered to at once get into communication with competent engineers with a view of getting a reliable man to look after the work in behalf of the city, also it was ordered that steps be at once taken to place the bonds.

We do not wish to assume the attitude of advising the gentlemen in this matter, but we would like to suggest that now they have fully decided what they intend to do, it would be well to push the matter along to a rapid completion, as this weather is very suitable for such work.

Transylvania Presbytery Holds Two Days Session In Lancaster.

The Transylvania Presbytery was organized at the Presbyterian Church in this city at 7:30 o'clock Tuesday evening after a splendid sermon by Rev. J. Russell Crawford, the retiring Moderator. Rev. J. Q. A. McDowell of Danville is presiding over the deliberations of the body. On Tuesday evening Rev. George S. Watson of Mt. Vernon was elected Moderator to succeed Rev. Crawford, and Rev. Carl T. Michel was elected Temporary Clerk.

The attendance was unusually small, notwithstanding the fact that the territory of the Presbytery is a large one, extending from the far confines of Harlin and Perry county to the distant border of Pulaski, but the proceedings were none the less interesting because of the small attendance.

On Wednesday evening the audience were treated to a splendid sermon by Rev. Harry S. Mordock of Buckhorn Ky., who took for his "Mountain Home Missions", a splendid subject which was handled in an able manner by Rev. Mordock. The assistance of Mrs. John M. Mount's splendid voice added very materially to the musical features of the meeting, as did also Rev. Michel both of these splendid musicians delighted the audiences with their singing. The meeting closed at noon Thursday.

Complete Change In Line Up In The Great Piano Contest This Week.

As we predicted there might be at any time, there is a complete change in the standing of the contestants in the great Piano Contests this week, a new contestant taking the lead, but the others are not discouraged and are working with renewed energy, hoping that they may displace her in their own favor at the next count. There are also several new nominations, and with the coming of another issue, one of the recent entries may forge to the front rank. The contest while friendly is growing very spirited, each of the contestant putting forth their very best effort to secure and maintain first position, and many changes may be expected as the race progresses.

We are glad at any time to see any of the contestants, and if they will call at the Record office, we will gladly give them any information which they may desire in regard to the contest. None of the Record force is taking any part in the race and is showing no partiality to any of the candidates, and we wish to assure each and everyone of them that they shall receive fair and impartial treatment at our hands throughout the entire contest.

Following is the standing of the respective candidates at the last official count made on last Monday:

Saloons In Nicholasville.

After a legal battle of more than a years duration, Nicholasville is to have saloons. The local option election held more than a year ago was won by the "wets," it was contested and the result of the election was upheld by the Court of Appeals, and on last Saturday the City Council granted license for the operation of four saloons, fixing the license at \$1,000. per year.

Lancaster Fair July 30-31 & August 1st.

Three big days, the Fair will be held on these dates positively, regardless of the fact that there may be Fairs in progress at other places. The Lancaster Fair this year is to be bigger and better than ever, that fact is already assured. The premiums are to be liberal and covering all classes of live stock, and will also include poultry. The growers of fancy chickens and ducks in Garrard county will be given an opportunity to exhibit their pens. The hog breeders will also be liberally provided for and good premiums offered for the various varieties. Look out for those mule rings, there is going to be some cracker jacks. Already a splendid stock show is assured, some of the most noted exhibitors in the state having already given assurance of their intention of being here. Good music, a splendid line of midway amusements and all the splendid features of the past, together with some new attractions, will be seen this year, and it is the intention of the management to make this the banner Fair of all the splendid exhibitions held in Lancaster.

If you have anything in the way of stock that gives promise of being a contender in the ring, begin now putting it in shape so that you may have it in tip top condition by the time of the Fair.

Don't forget the dates, July 30-31 and August 1st, same old dates, same old Fair ground, and a bigger and better exhibition.

This is a day of "progressives", and the people of Lancaster are nothing if not progressive. This fact is fully demonstrated by their willingness to make provision for internal improvements. Recently our water supply was found to be impure and inadequate and the people were asked to vote bonds to the legal limit, \$12,000., for their extension and improvement; the proposition was submitted to the people and carried. Then it was found that our present school building did not come up to the requirements, was un-

sanitary, badly ventilated and badly fitted to accommodate the 400 or more children who were seeking educational advantages within its walls. A bond issue of \$20,000., again up to the limit, was asked of the people, the proposition carried unanimously, and the City Council now have \$12,000. in their hands to expend for the extension of the water works system, and the School Trustees have \$29,000. in their hands for the erection of a new school building.

This speaks well not only for the progressive spirit of the people, but it shows that they have elected men to their public offices in whom they can place implicit confidence, for what greater mark of confidence can be shown in a man or a body of men than to place your money in their hands with a feeling that they will spend that money judiciously. And that both of these distinguished bodies of gentlemen will expend the respective funds placed in their hands in a wise and intelligent manner and for the very best interest of the people, we have not the shadow of a doubt, and when they have completed their labors, we feel certain that Lancaster will have an inexhaustible supply of pure, wholesome water, and will have a school building equal in every respect to the buildings in other towns of its size in Kentucky.

The candidacy of Woodrow Wilson for the Democratic nomination for the Presidency seems to be finding favor to more or less extent with adherents of his party in every State. He seems to be the only candidate to have followers everywhere. We find him the contending candidate in every state where the delegates have been selected. While there are other candidates for the nomination who merit the confidence of any democrat and will make a worthy leader for the party and fully measure up to the position of the presidency, yet we see none who is so acceptable to us and the party generally as Mr. Wilson. His friends claim that he has always been loyal to the party, which we think is the first thing to be considered. From his public utterances we find him in full accord with the principles of our party as pronounced in the last four National Democratic Platforms. He is a "Progressive" in the full meaning of the word. No one has ever questioned his broad learning or that he possesses the ability required for a president of this nation.

His success as Governor of New Jersey proves him to be a Statesman. The highminded and dignified way in which he has conducted his candidacy shows the superior qualities of true manhood he possesses. We would like to see him named as the Standard Bearer of the party at the Baltimore convention.

What has become of the Garrard County Development Association? We believe that it is about time that it should begin to get busy, that there is work for it to do; the commercial bodies in other cities are taking on new life, and it would be well for Lancaster to let it be known that she is still on the map, and is an active contender for anything good that might be headed in her direction. Over at Harrodsburg they held a big Mass Meeting and appointed a committee composed of at least a half hundred of the leading citizens to confer with the Burley Tobacco Society in regard to the establishment of a loose leaf market in their city. They also appointed a committee with reference to the building of a trolley line in connection with the construction of the big dam which is to be constructed across Dix river and another to consult with the Central Kentucky Traction Co. in regard to the extension of the line from Nicholasville. The Harrodsburg body seems to be a live one for sure and is going out after everything in sight. The early bird usually secures the best breakfast, and if Lancaster does not keep her eyes about her, she is liable to lose something in the way of an industrial plant or trolley line, which by the exercise of a little more diligence on her part, she might have secured.

The friends of Mr. Joseph Robinson in Mercer will learn with regret of his determination not to offer for Commonwealth's Attorney. Having heard of the distinguished ability, the fearlessness and the uncompromising integrity which characterized his career as County Attorney of Garrard, many people had solicited him to make the race and had determined to give him their earnest support. While in no wise a candidate he gave some consideration to the flattering solicitation of the voters of the county and of the other counties of the district. We are advised by one who seems to know that if the office were tendered him without opposition he could not accept it because of the sacrifice it would involve to his large practice and other business interests. There is no doubt that his candidacy would have received flattering recognition here, and it is to be regretted that such men cannot respond to the call of the people, because of the splendid and much needed service they could give to their state. It is hoped that sometime in the future Mr. Robinson may find himself in such situation that when the people call for his earnest and patriotic services he will be able to respond heartily.—Harrodsburg Herald.

That Speaker Champ Clark will have a large following in Kentucky, there can be no doubt, Ollie James is going to manage his campaign in Kentucky, many of the Congressmen from the state have already declared their preference for him, as has also many of the most prominent politicians in the state, including Mayor Head of Louisville. Gov. McCreary while maintain-

ing a noncommittal attitude, showed by his speech in the Harmony Banquet at Louisville on last Saturday night that he was in a "Barkis is willis" frame of mind, and what it came to, predicting what would happen in the event Clark was nominated, his opinion was freely expressed that he would defeat the strongest man the republicans could put out against him.

Incomplete, but sufficient returns to leave no doubt of the result of the primary election held in Illinois on last Tuesday, shows Clark to have won the democratic nomination over Wilson, and if the ratio be maintained as the returns now indicate by a two to one vote, Roosevelt defeated Taft, his managers claim by from 100,000 to 150,000. Presidential delegates were not named on the ballots at the primary, but will be named by congressional districts and at large, the effect of the primary vote simply serving as a guide and indication to party feeling and preference.

Judge S. W. Hager, campaign manager for Woodrow Wilson in Kentucky, issued a direct challenge to Senator-elect Ollie M. James and State Auditor Henry M. Bosworth, campaign managers in Kentucky for Speaker Champ Clark and Governor Judson Harmon, respectively, to join with the Wilson adherents in asking the State Democratic Executive Committee to call for a Presidential preference primary to determine the choice of the Democratic voters in this State.

Catholic services were held at the home of Mr. N. Miller on the Richmond pike on Tuesday morning by Father O'Dwyer, he coming down from Richmond for the occasion.

Price.

The wife of Mr R. Z. Price, a prominent farmer of the Hackley section, died Tuesday after a long and painful illness of a complication of diseases, and her remains were interred at Gunn's Chapel below Buckeye on Wednesday. Mrs Price before her marriage was a Miss Keltner of Adair county and was a very estimable lady. Besides her husband the deceased is survived by several children, including a two months old babe.

Notice To Members Garrard County Corn Club.

Miss Higgins will be in her office on Friday and Saturday and will issue the corn to the members on those days. We will publish next week a full list of the prizes and how they are to be awarded, and also other information which will be of value to the contestants.

Circuit Court In Danville.

The April term of the Boyle Circuit Court convened in Danville on Monday with Judge Charles A. Hardin presiding. He delivered an unusually strong charge to the grand jury, dwelling at length on the infractions of the law in general, and on the pistol carrying evil and the blind tigers in particular, urging that body to go after every one whom they might suspect of being guilty of these charges. There was a large crowd in town for the opening of court and much favorable comment was heard on the mastery charge to the grand jury, and the good people of Boyle are hoping for and expecting that a good part of the criminals who have infested their town and county of late have about reached the end of their tether and are about to feel the heavy hand of the law.

TREMENDOUS DAM

Over Dix River Near King's Mill Seems To Be An Assured Fact At An Early Day.

The following press dispatch sent out from Lexington would indicate that the erection of a Dam across Dix river a short distance above where it empties into the Kentucky, is an assured fact. We do not as yet know just what this means insofar as Lancaster is concerned, as the gentlemen who are promoting the scheme have not as yet fully made known their intentions, further than that they propose to furnish light and power to the towns in this section of the state.

Lexington., Ky., April 6.—At a meeting held here last night by the promoters of the Dix river Power, Company the articles of incorporation were signed and officers and directors elected. It is proposed by the company to build a dam 200 feet high across Dix river a few miles above its confluence with the Kentucky and with the water thus confined to generate the equivalent of 24,000 horsepower per day. Transmission lines, intended, shall be run to Louisville, Lexington and possibly Cincinnati. It is estimated that the completion of the plans will not cost above \$3,000,000. The directors elected are Bethel Veech, Louisville; L. B. Herrington and Harvey Chenaault, Richmond; C. P. Kennedy, Burgin; S. Walton Forgy, Elkton; J. Miller Ward, Paris, and R. C. McDonald, Niagara Falls, N. Y. The officers elected are L. B. Herrington, president; Harvey Chenaault, secretary, and Bethel Veech, treasurer.

Judge Puryear Here.

Judge Emmet V. Puryear of Danville was in town on last Saturday and was a pleasant visitor at the Record office. Judge Puryear has many warm friends and admirers in Garrard county, he having been for many years associated with Hon. Robert Harding in the practice of law in Danville and on many occasions has practised at the Lancaster bar. Judge Puryear is making an aggressive canvass for the nomination for Commonwealth's Attorney of the District and tells us that his prospects are very promising throughout the district.

Lexington Gets Mammoth Tobacco Plant Of The Burley Tobacco Society.

The Burley Tobacco Society has purchased the property recently occupied by Dr. Sprague as a Sanitarium on South Broadway in Lexington and will erect thereon an immense tobacco warehouse, including a fully equipped tobacco warehouse with loose leaf selling floor, large basement, a redrying plant, stemmery, power plant and all other necessary accessories together with the mammoth factory building. The loose leaf warehouse alone will be over 500 feet in length and will cover several acres of ground. Work is to begin on the new plant at once.

Overwhelming Majority For School Bonds Only Five Dissenting Votes Cast Against Them.

The proposition to issue \$29,000. bonds for the purpose of erecting a graded school building in Lancaster, which was submitted to the people of the district on last Saturday, carried unanimously, there being only five dissenting ballots: there was 251 votes in favor of the issuance of the bonds and five against their issuance. This means that in the very near future Lancaster is to have a school building adequate to the growing necessity for more room, and a modern built, modern equipped, up-to-date school building, sanitary, well ventilated well lighted and with the modern appliances of every description, which are to be found in all of the school buildings erected in recent years.

The present school building at the time the property was bought and the buildings overhauled and added to, to make them suitable for the purposes for which they are being used, were thought to be in every respect suitable for that purpose, but the influx of people seeking the advantages of good educational facilities was not then foreseen, and the building soon became so congested as to be wholly unequal to the demands made upon it, and it was seen that something must be done to remedy this state of affairs, but just how to do this without placing an additional burden of taxation upon the people was a problem which could not be easily solved, until the death of one of our noblest and best citizens, that philanthropic gentleman, Mr. Lewis Y. Leavell, bequeathing a fund for the use of the school which made possible the erection of adequate buildings without additional taxation; then it was that it was determined to issue bonds and erect a new building. Of course nothing can be done just at present toward the contemplated improvements but with the closing of the present school term, the trustees will doubtless get busy and rush the erection of the new building to a rapid completion.

POSSIBLE BUT NOT PROBABLE

Fayette County Citizen Suggests That The Citizens Build, Own And Operate A Car Line Between Lancaster And Nicholasville.

Wes. Mayfield, of Fayette county, in a letter to the Lexington Leader has the following to say about the needs of an interurban to Lancaster: A few days ago I took a trip to Garrard county. I went to Nicholasville too late to catch the mail wagon, which is run by a "blind nigger" and a "crippled hoss," between there and Brantysville. So I waited around Nicholasville with some old friends a couple of hours, and after "dosing" them up with some "snake ile" which I usually carry in my pocket for my "rizitism," especially when I am going to a "dry town" like Nicholasville, I struck out for Hickman bridge a foot.

A car line is needed badly between Nicholasville and Lancaster. If the people will build it and keep it, it will be a paying proposition as well as a convenience. It was a long time before the people knew that they could own the turnpikes. Now, who would be willing for the pikes to go back into the hands of private corporations. It would be just as easy for them to own the interurban car lines. And could travel for about one-half less than we now pay. And then the people can own the natural gas wells, the coal mines, the water works, etc, just as easy as they own the turnpikes, the streets, the school houses and other public institutions. The people support all these institutions, whether public or private. The producers can never get their full products until they understand this. The most important question now before them. With a little study, they can understand it, and when once understood they will solve the problem." Mr. Mayfield's suggestion is a good one, but we do not deem it plausible. However, we are firm in our belief that within the course of but a few years these two towns will be connected by an interurban line, built not as he suggests, by the people, but by a corporation, but not at the cost to the people which he suggests.

Hereafter in Nicholasville chickens may not scratch in their neighbors garden with impunity, and if they do, the owner of the fowl will be haled to police court and fined for the chickens depredations, the City Council having enacted an ordinance to that effect, and fixing a penalty of from \$1. to \$5. upon the owners of trespassing fowls.

Factions Disagree And Republicans Send Two Sets Of Delegates To Convention.

The largest republican convention ever held in Lancaster was the one last Saturday. Before nine o'clock the streets on the Public Square were most blocked with the enthusiastic adherents of President Taft and Colonel Roosevelt, the friends of each presenting the relative merits of their leader. The Roosevelt forces from Paint Lick came down headed by a brass band, which greatly aided the leaders to handle the large crowd who came to help carry the convention for the ex-President. The Roosevelt leaders had made arrangements to furnish entertainment for their followers by free lunch with burgoo and coffee with the band playing while they were waiting for the final line up. Free lunch was also furnished by the Taft leaders. When county chairman, W. C. Winn called the convention to order from the front steps of the court house, between eleven and twelve hundred republicans pressed around the speaker and when he directed the Taft followers to go down Stanford Street and the Roosevelt supporters to Danville street, there was most a stampede so anxious were the earnest voters to get in line to be counted. Counters were appointed by the chairman to count and report the number in each line who wished to vote for the Taft and Roosevelt candidate for permanent chairman of the convention. There was a disagreement between the counters of the two factions and the Roosevelt forces returned and held their convention in front of the Court house on the Public Square and instructed the sixteen delegates to vote for Colonel Roosevelt for president. The Taft supporters held another convention and instructed their delegates for President Taft. It was generally conceded that the Roosevelt crowd was considerably in the majority. Much indignation was expressed by the Roosevelt people against the action of the Taft supporters in withdrawing from the convention and many of them do not hesitate in saying that should Taft get the nomination in such a manner they will not support him in November. While we regret that our brethren should have such stormy conventions as are being held over the state, with the bitterness which must result from such contest, but 'tis an ill wind that blows nobody good", and we firmly believe that November election will show the largest democratic majority in Kentucky and in Garrard County ever counted.

TO BREAK UP COLD

Some Advice That Will Save Time And Money

Strong drink and quinine may relieve a cold, but it usually does more harm than good.

To break up a hard cold in either head or chest thousands are using this sensible treatment.

First of all look after your bowels; if they need attention use any reliable cathartic. Then pour a scant teaspoonful HYOMEI into a bowl of boiling water, cover head and bowl with a towel and breathe for 5 or 10 minutes the pleasant, soothing, healing vapor.

Do this just before going to bed; your head will feel fine and clean and you'll awake from a refreshing sleep minus a cold in the morning.

For colds, coughs, catarrh, asthma and croup HYOMEI is guaranteed. A fifty cent bottle is all you need to break up a cold and this can be obtained at R. E. McRoberts & Son and druggists everywhere.

The death angel has visited our community again and claimed for his own, Mrs. Cora Poore Halcomb the young wife of Robert Halcomb. Mrs. Halcomb had been in failing health for several months and since the death of her father S. W. Poore, only two months previous she had failed rapidly.

She was the only daughter of Mrs. S. W. Poore and a niece of R. S. Brown. While snatched away in early womanhood, she was ready for the summons. Funeral conducted by pastor Rev. Simpson.

The Death Angel cast another gloom on our community when it entered the home of Mr. Jas Smalley Saturday morning and claimed for its own the aged and beloved wife and mother. Mrs. Smalley had been a sufferer for some time from a complication of diseases and was ready for the summons. She was a member of Mt Olivet church from which the funeral services were held Sunday afternoon conducted by Revs H. J. Tomlinson and Simpson. Interment in adjacent cemetery. Many relatives survive to whom sympathy is extended from entire community.

After a long illness William Christopher calmly and peaceably entered home on Easter morning April 7th 1912. Mr. Christopher was born February 25, 1842 was a faithful and obedient servant of Christ had been a member of the Methodist church for over a half century. He was in every sense a noble and Christian man, an affectionate husband and father, and was always doing good to those who might

be in trouble. Funeral services were held in Brown's Chapel Monday morning conducted by the pastor Rev Godbey of Nicholasville. Interment in Harrodsburg cemetery. He leaves two sons and a daughter, besides a number of other relatives to whom we extend our heart felt sympathy.

A Card Of Thanks.

The family of William Christopher wish to extend their sincere thanks to friends for kindness shown during illness and at death of father.

Play Ball.

All the big leagues begin playing ball this week, and the attention of the public will now be divided between this attractive pastime and politics. The lure of the ball park is strong upon about 90 per cent of the people of this country, and a first class game between two well matched teams will seriously detract from the attendance at a political convention any day in the week.

McRoberts & Son to stop falling hair, eradicate dandruff and stop itching scalp, or money back. Sold in every town in America by leading druggists for 50 cents a bottle. Read Miss Kruger's letter.

PARISIAN SAGE is the best hair grower and beautifier and dandruff cure. I lost all of my hair through typhoid fever; I was almost baldheaded and my scalp was as sore as could be. I tried everything, but in vain. Finally I tried PARISIAN SAGE, and after using one bottle my hair started to grow, and has grown three or four inches inside of two months. I advise every woman who wants beautiful hair to use Parisian Sage Miss Meta M. Kruger, Brownstown, Minn.

By Harvey M. Estes.

O Father of wisdom, mercy and love,
Who showeth goodness from above,
Thou art great in knowledge and exceeding wise.
To give us the blessings of these earthly ties.

By them together we are closely net.
In the family ties of husband and wife,
Yet in our earthly cares we oft forget.
That we must sometime depart this life.

Teach us Father, how to bear.
The grief we have, the sorrow of heart,
When our loved ones have passed over there.

And we remember that we must depart.
We all the debt sometime must pay,
Is the message of the World;
"God is love" may we say.

When these words we once have heard.
For then our thoughts are on the mansions,
Which our Savior has gone to prepare;
And we think of the heavenly blessings
That with our loved ones we shall share.

A Genuine Hair Restorer.

Did you ever know of any hair preparation which would really grow hair and restore the color to gray or faded hair?

There are many preparations highly advertised to do the work, but it is probably your experience that none of them will really meet the claims of their manufacturers.

There are many so-called Hair Restorers which are nothing more than harmful chemical dyes, which do not grow any hair, the only result being that they dyed the hair, having no permanency and often causing a streaky appearance.

It has been the aim of the chemists for years to discover a preparation which would really grow hair and restore the color to gray or faded hair, but heretofore they have met with no success.

Prof. Rembler now claims to have discovered a combination of harmless vegetable composition which is a Genuine Hair Restorer and will grow hair and does not contain any dye of any kind, but will positively restore the natural color and brilliancy to gray and faded hair.

This is a very strong statement to make and if any chemist without the recognized ability and national reputation of Prof. Rembler were to make this claim we would be inclined to be skeptical as to its truth. It will be remembered by readers that are familiar with scientific discoveries that Prof. Rembler was the inventor of the one fire process for gilding glass and also the Rembler wireless Coherer. Any statement made by Prof. Rembler is entitled to consideration as he would not make any statements which were not true and would injure his established reputation.

The Silonon Mfg. Co. of Pueblo, Colo., have purchased the exclusive American rights to manufacture Sagine, as they have named Prof. Rembler's invention, after having made a six month's test of Sagine and thoroughly demonstrating that it would positively do the work. The Silonon Mfg. Co. have authorized us to make the following remarkable offer to all who need a "Genuine Hair Restorer."

They will send a written agreement with every bottle of Sagine, to the effect that if one bottle of Sagine conscientiously used according to the directions does not give entire satisfaction to the purchaser; if Sagine does not actually grow hair and restore the color to gray or faded hair, remove dandruff and make the hair healthy and glossy, that they will pay the sum of \$5 to any dissatisfied purchaser.

This is the strongest offer ever made by any manufacturer and one they could not possibly make if they did not know positively from experiment that it would do exactly what they claim for it. No one takes any chance in buying Sagine as it is certainly worth \$1 to use a Genuine Hair Restorer that will grow hair, and if it does not give satisfaction they will pay you the \$5 as agreed. Send a \$1 bill to The Silonon Mfg. Co. Pueblo, Colo., stating that you wish to purchase a bottle of Sagine with the written agreement to grow hair and restore the color to gray or faded hair or pay you the sum of \$5 and it will be sent to you by express in plain wrapper.

The Silonon Mfg. Co. is incorporated under the Laws of the State of Colorado and refer you to the mercantile agencies or any Pueblo banks as to their ability to fulfill any agreement they make.
